### SATELLITE SCHEDULE

25X1A

2.

reported no change to the satellite launch schedule which is as follows:

25X1A

### CORONA

1105 - 30 Oct 1968  
1106 - 11 Dec 1968  
1049 - 29 Jan 1969  
1107 - 12 Mar 1969  
1050 - 14 May 1969

### 1105 MISSION PRIORITIES

3. Camera priorities for Mission 1105 were approved by the Subcommittee for forwarding to COMIREX for approval. DIA member queried the NRO representative as to what effect priorities had on obtaining coverage of an area or target. The NRO responded that different levels of weather criteria are used depending on the priority that is assigned to a target. The DIA member noted that this made the camera priorities sound more like a weather criteria paper than a true expression of an intelligence requirement. He also indicated that he did not see the need for all the different levels of priorities that are presently used and that since a number of questions remain on this subject it should be pursued further at a later date.

PRECISE GEOGRAPHIC COORDINATES PAPER

25X1A

8. The Chairman reported a final draft of the coordinates paper would be distributed today incorporating recommendations received from members. [redacted] expressed hope that the paper could be put into final form at the 5 November ICRS meeting and presented to COMIREX on 7 November.

9. The NPIC consultant presented a memorandum which expressed NPIC's recommended procedures for providing coordinate data for NPIC interest targets only as well as "missed targets" by satellite pointing systems.

CUBA

25X1A

10. The Chairman displayed an overlay showing coverage of Cuba during the current 56 day period. He noted that the total area coverage stood at 88%. [redacted] stated that no Delta III missions had been flown as yet due to problems in locating the proper camera hatch.
